SLEEVE MACHINE ASM60 for preglued carton board sleeves

The compact sleever ASM60 loads a tray automatically into a pre glued sleeve. It's a flexible machine, easy to operate, with a wide size range. Thanks to up to 15 pre-programmed sizes and a quickly changeable magazine, changing over takes only a few minutes. Round as well as rectangular trays can be handled.

Photo above: For rectangular as well as round sleeves, different sleeve constructions can be applied such as an eco-sleeve, a full size sleeve or a sleeve with support.

Photo 1: The guards can be made either of stainless steel or clear polycarbonate.

Photo 2: The preglued sleeves are automatically taken from the magazine

Photo 3: Control panel with up to 15 programs.

Photo 4: The machine is compact and clear.

Speed	Up to 60 sleeves per minute (question to size and construction)
Supply voltage	230 V
Control voltage	24VAC
Power demand	4kW / 16 AMP
Standard	NEN 3140 (low tension)
Directive	Machine directive (MD) (2006/42/EG)
Air consumption	160 ltr/min at 5 Bar
Machine dimension	1590 x 920 x 1450 mm (l x b x h)
Weight	Ca 270 kg
Sleeve sizes in mm*	
	min max
L	80 220
W	60 235
H	25 80

*Other sizes on request.

Sizes are subject to construction and to a combination of length, width and height.
