

# CARTON CLOSING MACHINE S800

- COMPACT
- SPEED UP TO 90 CARTONS PER MINUTE
- EASY TO USE AND MAINTAIN
- EASY AND QUICK SIZE CHANGE OVERS
- OPTIMAL PERFORMANCE

## CARTON CLOSING MACHINE S800

The Sprinter S800 carton closer is an easy accessible and compact machine. A well-proven technique, based on driven, vacuum supported belts is used to feed the cartons through the closer. The cartons can arrive at random with minimum distance in between, which means high production at low machine speed.

Due to the flexible upper drive belts, accidentally over loaded cartons will pass through the machine without a jam. The machine is easy accessible from 2 sides.

*Photo above*

*Conveyor belts instead of carrier chains feed the cartons through the machine without any friction.*

*Photo left above*

*Flexible upper drive belts.*

*Photo left in the middle*

*The belts are driven by direct drive.*

*Hand wheels with digital read outs and adjustable stops reduce change over time.*

### TECHNICAL CHARACTERISTICS

<b>Speed</b>	Up to 90 cartons per minute (Question to carton size and carton construction)	
<b>Supply voltage</b>	400V, 3 phase, Pe + neutral	
<b>Control voltage</b>	24V DC	
<b>Power demand</b>	16,7 kW	
<b>Air pressure</b>	6 bar dry and filtered	
<b>Air consumption</b>	50 NI/min. at 6 bar	
<b>Directive</b>	Low Voltage (LVD) (2014/35/EC) EMC Directive (2014/30/EC) Machinery Directive (MD) (2006/42/EC)	
<b>Machine size</b>	ca 4060 x 1650 x 1500 mm	
<b>Weight</b>	1400 kg	
<b>Carton size in mm</b>	min	max
L	100	300
B	80	250
H	20	100
Other sizes on request		

### Optional

Ist step mirror turned  
Lidcorrector  
Vacuümsystem
